LIBITARY

DAYLILIES (Hemerocallis)

In addition to our own hybrids and 1951 introductions, we offer a selected list from other growers. Shipments made after blooming.

Terms are cash with order, check, draft, or money order. Postage is paid on orders over \$5; on smaller orders add 35¢ for packing and postage.

1951 INTRODUCTIONS

These are especially selected from our seedling bed. All names except Yukon are Indian names in use in this locality.

Indian names in use in this locality.	
MASSACHUSETTS - An eyecatcher of velvety purple maroon of recurving form, with a yellow heart. No fading. For best garden effect, plant between light yellow varieties. 38 in. Late July.	\$10.00
NEHOIDEN - Brilliant clear orange flowers of flaring form distinguish this variety. Heavy stem, good branching. The 30-inch height makes it perfect for the front of the border. Late July.	10.00
NONANTUM - A rich dark margon with a golden mid rib extending into a golden heart, of graceful recurving form. 38 in. Late July.	10.00
NORUMBEGA - The basic color of deep yellow has an overlay of golden brown through the center of the wide, slightly frilled petals, leaving a margin and center rib of the basic tone. The sepals are entirely flushed golden brown. 53 in. Late July.	8,00
QUINEBOQUIN - A stunning variety of yellow orange with a tomato red overlay. 46 in Late July.	5.00
SHAWMUT - The foundation orange of this flower is entirely covered by a rose flush which shades to a deeper tone at the tip of the petals:	

- SHAWMUT The foundation orange of this flower is entirely covered by a rose flush which shades to a deeper tone at the tip of the petals; the sepals are also entirely flushed with rose. Of recurving graceful form. 35 buds. 36 in. Late July.
- WACHUSETT A fine clear flaring yellow with pointed petals of heavy substance that makes a good foil for Massachusetts. 42 in. Late July. 6.00
- YUKON A glistening yellow, deeper than Wachusetts, that is composed of a light yellow base flushed with a deeper yellow, petals slightly ruffled and recurved. A 53 inch stalk that carries 35 or more buds. Early August. Fragrant.
